
Old Homestead Trail

Difficulty: easy / medium

Time: 1 - 1.5 hours return

Follow the orange trail until the turnoff at the old homestead. From here, it's a short distance to the valley views by the old oak. Please respect our neighbour's right to privacy and do not go further than this point.

Blue Trail

Difficulty: easy / medium

Time: 1 - 2 hours return

Follow the orange trail until the turn-off past the old homestead. The blue trail offers plenty of shade along a flat path, following the creek bed to Elizabeth Taylor Grove.

Yellow, Green and Pink Trails

Difficulty: medium / hard

Time: 2 - 2.5 hours return

Follow the orange trail until the fork at Scarlet O'Hara Meadows, where the yellow trail begins. After a short climb, you have three possible routes. The yellow trail continues along the top of the ridge through a small wooded area to fine views.

Alternatively, the green trail takes a lower path along the ridge and continues further down to Cathedral Grove.

The third option is the short but steep climb up the pink trail, which offers sublime views and solitude at Grace Kelly Point.

Orange Trail

Difficulty: medium / hard

Time: 2 - 3 hours return

Beginning from the gate at the start of the driveway, the orange trail passes Old Grandmother Oak at Julie Andrews Point and Memorial Grove before descending into the forest. Once you reach the old homestead, you're not far from the dry creek bed and Scarlet O'Hara Meadows. Here, you can either take a rest before returning, continue on the trail further down to the creek at Pine Point, or alternatively take the yellow trail for the views at Judy Garland Hill or Grace Kelly Point.

Please note that all the trails involve a steep ascent back to the lodge. Remember to take your hat, plenty of water and save some energy for the return trip!
